

**Less time on washing, more time for you**

Our TimeCare washing machine with TimeManager function lets you reduce laundry cycles to suit you. Simply choose the TimeManager function on the panel and cut the cycle length by up to four times. Giving you great washing results at times that suit you.

**Prednosti in značilnosti****AutoSense for automatic washing adjustments**

The AutoSense function adapts to your needs to provide excellent fabric care. This function adjusts the washing time, water and energy consumption depending on the size of the load. For complete laundry care without wasting resources.

**Soft Drum, for gentle laundry care**

The Soft Drum is designed to handle your clothes with complete care. Gentle water jets lift and protect laundry during the wash, while the special pattern in the drum stops fabrics getting stretched or damaged during spin cycles.

**Laundry that works around you with Delay Start**

The Delay Start function gives you control over your laundry. You can postpone the start time of your washing cycle, so that clothes aren't left sitting in the drum for hours. Now you can experience laundry that works around you.

**Change settings with intuitive Touch Control**

Enjoy intuitive control over your washing machine with our Touch Controls. Easily manage settings and start washing loads at the touch of a button.

**No filter cleaning needed with AutoClean**

AutoClean system filters particles from washing cycles, collecting small objects in the door's rubber lip. It even cleans itself\*, meaning less time on maintenance and more time for you.

\*Intended for normal household use only, read user manual for best maintenance.
